

Versatility & Biocompatibility with Ackuretta 3D printing solutions and SAREMCO materials

St. Gallen, Switzerland, September 2021: Ackuretta's LCD dental 3D printer, SOL, is now compatible with SAREMCO's highly aesthetic material CROWNTEC.

The partnership between **Ackuretta Technologies** and the Switzerland-based manufacturer of outstanding materials, **SAREMCO**, sets a new standard for high return of investment production of a variety of dental applications offering dental professionals across the globe the opportunity to provide patients with **affordable and natural-looking permanent crowns, inlays, onlays, veneers and artificial teeth the same-day.**

Franca Schmid, CEO of SAREMCO, is convinced to have an excellent partner for this in Ackuretta. Both companies stand for ongoing significant innovations. The new partnership also means an additional service for SAREMCO customers. saremco print CROWNTEC users can take advantage of Ackuretta printers thanks to a smooth workflow. "We look forward to further opportunities in future collaboration."

"With the integration of saremco print CROWNTEC, Ackuretta users are able to leverage the long-standing expertise of SAREMCO in reliable light-curing resins for restorative dentistry, combining the innovation of two industry-leaders in 3D printing for dental professionals," states Ayush Bagla, CEO of Ackuretta. "At Ackuretta, we strive to be the most trusted voice in digital dentistry and by partnering with research-driven companies, such as SAREMCO, we are one step closer to providing the most versatile, end-to-end solution on the market. All the while, we are reducing the complexities for dental professionals and increasing their efficiency with our 3D printing systems."

Ackuretta's high-resolution & precision 3D printer, SOL, offer a holistic solution for dental professionals aiming for perfect results with every 3D print. As one of the first materials for permanent restorations, saremco print CROWNTEC is available in a wide range of colors for a truly aesthetic smile.
